Benefits

Counseling can have many benefits. It can help you learn to communicate better in your relationships, feel more connected to the important people in your life, create a sense of hope and direction in your life, relieve feelings of frustration, depression, or anxiety. It can help give you the tools to change your thinking, behavior and feelings to create positive outcomes in your life. You determine the nature and amount of change you wish to make.

Risks

In counseling, major life decisions are sometimes made, including decisions involving separation with families, development of other types of relationships, changing employment settings and changing lifestyles. The decisions are a legitimate outcome of the counseling experience due to an individual's calling into question many of their beliefs and values. Furthermore, symptoms may be intensified, and the emotional experience may be too intense to deal with at times. I will be available to discuss any of your assumptions or possible negative side effects in our work together.

Records

iCTherapy, is required by law to maintain records of each session or phone conversation. These records include a brief synopsis of the conversation along with any observations or plans for the next meeting. A judge can subpoena your records for a variety of reasons, and if this happens, iCTherapy, must comply. Also, to file for insurance reimbursement, a diagnostic code must be assigned to you, should you have further questions please let us know.

Confidentiality

With very few exceptions, the information discussed during your therapy session and all documentation (written or in any other medium) is kept private and confidential. **Some very important exceptions to this rule are: If there is a court order for the therapist to appear, or to produce the client's chart. If your insurance company is involved, some information will be given after you sign the release of information part off the insurance form. If the therapist learns that there exists a serious threat to any person, including yourself. If there is evidence or suspected child, dependent adult or elder abuse.**
